Public Transportation

Your table will discuss the current state of public transportation in your community.

Keep these points in mind

- Currently, the following public transportation services are available in parts of Lake County: bus and train.

- According to the NWI Times, the Gary Public Transportation Corporation ridership saw a near-decade high in 2018 and a 4.6% increase over 2017.

- Many communities in Lake County have no form of local public transportation.

- Approximately 3.5% of Lake County households, over 7,500, do not own a car.
Prompts

1. What are some positive assets and characteristics of Lake County’s public transportation? How can we build on these strengths?

2. What resources are needed to improve public transportation in Lake County?

3. What prevents you from using public transportation?

4. How do you think ride-sharing impacts public transportation?
